July 10, 2018

Accurate Crane Service Receives New 2018 Manitex 2892C from Empire Crane Company

Empire Crane Company has sold a brand new 2018 Manitex 2892C to Accurate Crane Service in Wallingford, CT. The 28 ton boom truck is mounted on a Peterbuilt 348 truck and features out & down outriggers, a 92' boom, single stage jib, and a Greer LMI.

Steve Bishop, owner and operator of Accurate says, "I chose the Manitex 2892C because it is a little bit smaller and will fit my niche and customer needs better than our other cranes. It is going to be a lot more versatile". He really enjoyed working with Manitex and the Empire team because of the accommodations they made to help him customize the machine.

Accurate first purchased from Empire 12 years ago and is now trading in that purchase. Over the years he has worked with Jonelle Alberici in our parts department for any parts needs. Steve says, "I really enjoy working with Jonelle because she has all of my cranes on file, can tell me the specific part numbers I need and the parts at my door within two days. That's really a priority for me".

Accurate Crane Service, established in 2004, provides quality crane service throughout the Southern New England region. Family owned and operated, our team brings over 25 years of experience to every job. With formal crane operating and rigging training beginning in the US Navy, Accurate provides a variety of services including: steel erection, HVAC lifts, sign & billboard erection, flagpole installation, electric pole installation, and work for building contractors.

Empire Crane Company was founded by Paul & Luke Lonergan in 2002. They are an authorized dealer for Terex, Tadano Mantis, Kobelco Crawler Cranes, Shuttlelift carry deck cranes, Manitex Boom Trucks, Wolffkran Tower Cranes, and Magni Telehandlers. Empire Crane offers sales, parts, and service at their offices in Syracuse NY, Bridgewater NJ, and Boston MA.
