

## Production Equipment For Seamless Steel Pipe

with a  
**seamless** today

### ■ Piercing Mill

That of conical-roller features as quick-rolling and uniform tubularbible thickness,easily adjustable available for feeding angle and toe angle, roller-saving available,PLC control system, outstanding domes-tically by itt super precision and high automatization.

### ■ Slight-stretch Reducing Mill

Respective-power-transmission of three rollers, flexible adjustment, char-actenize as high-precised of outer-diameter and superior surface finishing.

### ■ Rotating Heat Furnace

Single or dual-feeding available, fueled by LEG, automated furnace-temperature, furnace-pressure and furnace flow, domestical-topping controlling performance.

#### ■ Cooling Bed

Stepwise cooling bed, lifted by motor-transmitted, hydraulic-controlled translating, cooling sectioned as 27\*28m, dual-feeding available.

#### ■ Hot Rolling Mill

Conical roller, big disk, flexible adjustment, hydraulic-controlled lock system and balance system, easy and reliable operation, max pierced billet out diameters 300mm, max length is 14m, designed by "DEYANG ERZHONG", and manufactured by "Angang Group machine manufacturing company"; ranking top class for its design, manufacture and control.

#### ■ Tube Cutter

High-performance tube cutter supplied by Yingcheng Huaxing Tool Machine Limited Company, system features as high-speed and well-finished cut.

#### ■ Straighner

Six Trollers, eight columns, perfect rigid, automated pressed and automated angular adjustment, hydraulic lock system, features as easily and flexibly operating and high precision.

#### ■ Re Heating Furnace

Online reheating furnace ensures the mechanical property of seamless pipe. We can produce seamless pipe with steel grade N80.X60 etc.
