Configuration Lifecycle Management Summit 2022

Online Event, May 17-18-19

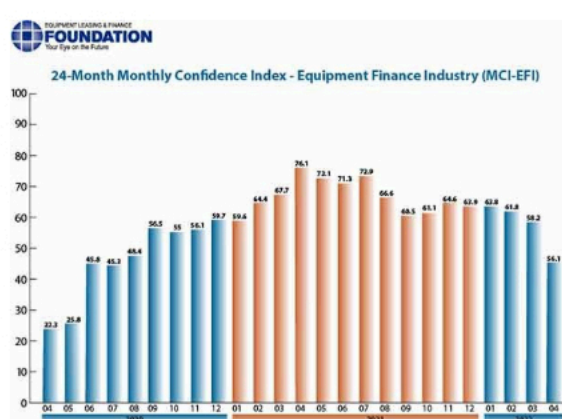

Configit

The product configuration management event of the year!

Join industry leaders to learn how manufacturers can get in control of product complexity while achieving peak operational performance.

*Hear speakers from **Emerson, Signify, Jaguar Land Rover, CNHi** and others on how Configuration Lifecycle Management helps manufacturers redefine their complex product configuration process and connect product configuration data across the enterprise -- integrating data from PLM, CRM, ERP and more -- into one single source of truth.*
