Central Mexico: Available and Cost-Competitive Labor

Webinar next week: Learn the real cost of labor at our Zacatecas campus for entry-level, mid-tier and experienced workers.

Today's world has more electronics than ever before, putting the need for wire harness assembly at an all-time high. But America's labor pool is both expensive and aging.

Electronics and boxbuilding companies are turning to Central Mexico, which offers a youthful, readily available and cost-competitive workforce. Learn the real cost of labor in Zacatecas, Mexico and how it can help secure the future of your operation during our fourth annual partner webinar with *Wire & Cable Technology International*.
