

The Latest News in the Engineering Industry

Optimizing 3D CAD Models for Rapid Prototyping

3D CAD modeling and simulation-based rapid prototyping with fewer revisions, lower costs, and quicker go-to-market – precision pays off.

[Key Considerations](#)

Reliable Power Electronics Components Testing

Alongside assembly systems, Sonplas also offers extensive expertise in testing.

[Read the Full Release](#)

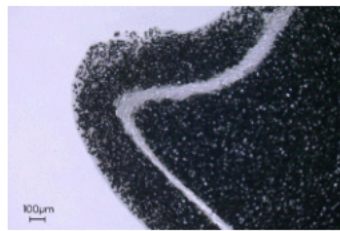

Inspiring the Workforce of Tomorrow Through Education

Connecting with K-12 students.

[Addressing Skills Gaps](#)

Hydroerosive Machining of Automotive Components

One process with three options: rounding, deburring, or calibrating?

[Read the Full Release](#)

The Crucial Need for Centralized Sources in Engineering

The creation of unified databases for essential engineering information will help organizations avoid costly project errors and delays.

[Connecting the Dots](#)

Harnessing AI to Modernize Manufacturing

AI is revolutionizing manufacturing, from predictive maintenance to smart automation, helping companies stay competitive.

[Substantial Benefits](#)
