

## Boost Uptime, Cut Costs—Meet IO-Link Sensors

Unlock cost-effective, scalable condition monitoring with PCB's IO-Link sensors—real-time data, fast deployment & seamless integration.

Unlock smarter, scalable condition monitoring with PCB's new IO-Link-enabled accelerometer. Designed for fast deployment and seamless integration, this sensor simplifies data collection while cutting costs across hardware, installation, and maintenance. Its remote configurability, real-time data insights, and compatibility with major fieldbus and cloud protocols make it ideal for updating legacy systems or expanding your monitoring network. Future-proof your factory floor with a flexible, cost-effective solution from PCB.
